

MUTINIES BREAK OUT IN RUSSIAN BARRACKS

Gigantic Russian Military Conspiracy Prematurely Sprung by Revolutionists.

Aim Was to Capture the Empire's Three Great Sea Fortresses. Fate of Sveaborg, After Heavy Fighting, Not Yet Known.

HELSINGFORS, July 31.—A gigantic military conspiracy, aiming at the simultaneous capture of Russia's three great sea fortresses, Cronstadt, Sebastopol and Sveaborg, arranged by revolutionary military league, was prematurely sprung here last night by the attempt to arrest members of a company of sappers who had mutinied on account of the death of one of their comrades, alleged to have been due to ill treatment. The entire garrison of the fortresses at Sveaborg flamed out instantly in revolt. All the artillerymen and sappers garrisoning the place were involved. Only four companies of infantrymen remained loyal.

SEIZED MACHINE GUNS. The mutineers seized forty machine guns and practically all the quick-firers and light artillery in the fortresses, but even with this aid they were unable to hold the main fort against the loyal infantry. The fighting continued all night long. The heaviest firing was heard from eleven o'clock in the evening till one in the morning. This morning a detachment of civilian revolutionists seized the marine barracks at Skatudden Island, hoisted the red flag, and were joined by all the marines. Nine cruisers, torpedo boats and destroyers lying in the harbor opened fire on the barracks. This fire was answered from the third story windows of the barracks with machine guns and rifles.

TOO HOT FIRE. The torpedo boats and the destroyers, which were lying closer to the shore, were subjected to such a hot fire from the barracks that their crews were driven below decks. They finally steamed out and joined in the bombardment with the cruisers. This evening the sending of assistance from the city to Sveaborg, with attacks by Cossacks and infantry from the land side, which began at 9 o'clock in the morning and continued through the whole day. Finally, towards evening, the Cossacks and the authorities announced that the barracks had been captured.

SVEABORG'S FATE UNKNOWN. At one o'clock in the afternoon the Cossacks cleared the square in front of the palace facade, Sveaborg, and then drove the public from the entire waterfront for the purpose of preventing the sending of assistance from the city to Sveaborg. The exact situation at Sveaborg is not known. Firing can no longer be heard. Rumors are in circulation that the entire fortress has now fallen into the hands of the insurgents, but they lack confirmation. It is believed that this cessation of fighting is but a prelude to the renewal of the battle between the mutineers and the government troops.

OUTBREAK IN CAUCASUS. ST. PETERSBURG, July 31.—When it became known in Dessagiar, in the Caucasus that the lower house of parliament had been dissolved, the entire garrison there mutinied. The soldiers killed their commander and eight officers and took the local administration into their hands. They posted pickets in the barracks, the post and telegraph offices and other public buildings for the preservation of order.

ST. PETERSBURG, July 31.—The military authorities received a telegram from Helsingfors this morning from Major General Laining announcing that the fortresses and artillery had opened fire on Commander Island. The insurgents seized artillery, all the machine guns and took possession of one of the islands. Some of the telegraph wires have been cut. Major General Laining added that he was himself on Commander Island with four companies of the garrison and two companies of sharpshooters from Helsingfors. He does not give the number of casualties.

Stanley Went Coolly to His Death

He Made No Confession Saying Nothing at All on Way to Scaffold. Except That, After Leaving His Cell He Thanked Policeman Conlon and Jailor Smith for Kindness.

WINDSOR, August 1.—Stanley paid the penalty of his dreadful crime at 8.10 this morning. Dr. J. B. Black arrived at the jail at 2.30 o'clock. Rev. Father Carroll, accompanied by Police Chairman Lynch, arrived at 2.55. Father Carroll went immediately to the cell of the condemned man and remained until seven minutes past three, when Radcliffe notified Major Forsyth, who went to the cell and brought Stanley out in the corridor, where he was handcuffed and the march to the scaffold began, Father Carroll reading the prayer and litany for the dying.

Stanley acted coolly. Walking with a firm step he proceeded along the corridor and up the scaffold. Not a word was spoken. The only sound was the prayers said by the priest. Arriving at the scaffold, Radcliffe immediately placed the straps on his feet and legs, placed the black cap over his head, adjusted the rope around his neck and as the words of "God have mercy on his soul," fell upon the lips of the priest the traitor sprang and Stanley passed into eternity.

Stanley made no public confession. He went to the scaffold and met his death without uttering a word after he left his cell. Those present at the execution besides Radcliffe were: Dr. J. B. Black, Rev. Father Carroll, Jailor Forsyth, Police Chairman H. A. Lynch, Deputy Sheriff R. Conlon, Constables George Singer and W. R. Smith. At 3.20 o'clock Dr. Black pronounced life extinct. Jury will meet at 8.30 under Coroner Reilly, and a verdict will be rendered in accordance with the facts. Stanley's remains will be conveyed to the St. John's Catholic cemetery for burial. After Stanley came out of his cell, he shook hands with Policeman Conlon and thanked him for his kindness. Stanley said he was very grateful to Jailor Forsyth and Miss Smith for their kindness to him while he was a prisoner.

Albert Chisholm Drowned in Dock

He Fell From the Commercial Wharf and Met His Death. Yesterday afternoon boys who were playing on Commercial wharf, saw the body of a man floating in the dock. The man was seen walking down the wharf some time before the body was discovered. It is supposed that he took a weak turn and fell over into the water. He could only have been in the water a few minutes. The man was about sixty years of age and lived on Grayton street. Undertaker Spencer was notified and took charge of the remains. Chisholm has a son in Westville to whom Undertaker Spencer sent a telegram, informing him of the accident. The young man will arrive in Halifax to-day, and it is likely that the remains will be taken to Westville for interment. Medical Examiner Finn gave a certificate of accidental drowning.

NINE-YEAR-OLD BOY DROWNED IN ST. JOHN.

Walter Milley Falls Through a Hole in Wharf in Government Pier. ST. JOHN, July 31.—Walter Milley, the nine-year-old son of Hugh Milley, laborer, was drowned this afternoon by falling into the water of the harbor through a hole in the government pier. The lad was out for a walk with his grandfather, Henry Milley, and was picking up driftwood when he fell through an opening in the wharf into the water, twenty feet below. There was no way to aid him and the grandfather rang in a fire alarm. A ladder was put down and with help the body was recovered. The pier where the accident occurred would seem to be little less than a death trap, especially for children. The opening, which is in the open wharf between two sets of tracks, apparently was made to give access to the water and is about two and half by three feet in size. It is without any protection, and but for two pieces of timber, laid across at one end the space would be even greater.

ELLENVILLE, July 31.—George Stewart, a thirteen-year-old Trenton boy, was drowned in the town yesterday. He was in a boat with two other boys; he stood up, lost his balance and fell overboard. The other boys were unable to offer him any assistance.

THE PENALTY IS PAID FOR HARVE'S MURDER

George Stanley Hanged in the Windsor Jail This Morning.

WINDSOR, August 1.—The last act in the Freeman Harvie tragedy took place this morning at 8.10 o'clock, when the murderer Stanley was called upon to pay the penalty of his crime with his own life. When Stanley was sentenced, and for some time afterward, he asserted his innocence, but latterly he has not done so, although up to the evening before his execution, not one word passed his lips that would indicate to his spiritual adviser, Rev. Father Carroll, that he was guilty. Rev. Father Carroll, of Halifax, was in Windsor last week and held several interviews with the condemned man and administered the sacraments of the church. During his confinement Stanley ate and slept well and showed a taste for good literature. He was cool and self-possessed all through the trying ordeal. Everything connected with the final scene was conducted with the utmost decorum and as privately as possible. Only the officials and necessary persons were present. Rev. Father Carroll prepared the doomed man for death. A number of morbidly curious persons gathered around the jail yard after midnight. It was not known exactly when the fatal drop would fall, but as the sentence was read between one o'clock and noon of the following day, those who delight in such scenes were anxiously endeavoring to gain a view of the crowning act in the ghastly tragedy. The gallows, erected on Monday, and a high board wall fixed around the jail yard so that the utmost secrecy might be maintained, and justice take its course as becomingly as possible. Sheriff O'Brien did all in his power to have the unfortunate affair carried out as became the majesty of the law.

Alberta Towns Have Grown

Edmonton More Than Quadruples Its Population in Five Years. OTTAWA, July 31.—Some returns were received to-day from the census of Alberta. The following table shows the population of the cities and towns of Alberta by the census of 1901 and 1906: Calgary 1901, 1906. Edmonton 4,091, 11,337. Strathcona 2,626, 11,534. Lethbridge & Stafford 1,550, 2,927. Stettin 2,072. Lethbridge 2,285. Lethbridge & Stafford 623. Wetaskiwin 550, 1,648. Red Deer 323, 1,420. MacLeod 796, 1,144. Lacombe 499, 1,015. Cardston 639, 1,002. Fort Saskatchewan 306, 556. Leduc 112, 391. Ponoka 151, 473.

Schr. Ashore on Three Sister Rocks

Marjorie J. Sumner Strikes Off Eatonville and Practically a Wreck. PARRSBORO, July 31.—The tern schooner Marjorie J. Sumner, Hinden, master, with hard pine from Jacksonville for Detroit, struck last night during a thick fog on the Three Sister Rocks, off Eatonville. Captain Hinden thought at first that she could be got off with the assistance of a tug, but later, when the vessel was found to be so badly damaged that she lost her deck and the spars went by the board. The keel is all gone, her bottom is badly torn up so that she is practically a wreck. An effort will be made to tow her up to save the cargo. The Sussie has arrived at Eatonville and the Parrsboro will leave here to-night to render assistance. The Sumner was built at Mattland four years ago, is 355 tons register, and is owned by Sumner and company, of Moncton. The schooner Nellie Carter, from River Hebert for West Bay with deals, was ashore last night at the mouth of Apple River and lies on the rocks full of water. She was built at Mattland 12 years ago, is 78 tons, owned and commanded by Captain James Gilbert. She will be a total loss.

City Collector Has Taken Over \$81,000 in Taxes Received Yesterday

MONCTON, July 31.—The Marjorie J. Sumner was partly insured. Her cargo was for the Rhodes, Curry company, and was uninsured. F. W. Sumner, owner, left here to-night for the scene of the wreck. The period for taking city taxes by Collector Theakston expired yesterday, when the sum of \$81,000 was received. This is about \$5,000 more than the amount taken on the closing day last year. On Monday over \$25,000 was received. The total amount taken by Collector Theakston under the two per cent discount rule is over \$150,000—somehow more than half the aggregate to be collected from Halifax ratepayers for the year.

Chief Detective Williams Now Has a Deputy

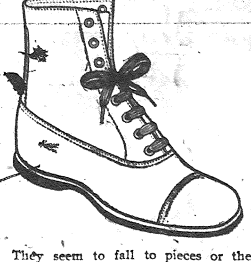

MONCTON, July 31.—A. J. Tingley, chief of police, Moncton, has been appointed deputy to Chief Detective Williams, of the I. C. R. The appointment to take effect at once. This leaves the position of chief vacant on the city police force. The name of Officer Leslie Chappell is most freely mentioned in connection with the position. S. A. E. Wall, who has been known in the I. C. R. department inaugurating the new system of accounts, has resigned to accept the position of manager for the N. B. and Annapolis company of Canada, with headquarters at St. John. H. H. Ayer, bookkeeper in the R. F. & M. company, and one of the city auditors, has been appointed to his place.

Minister of Railways and Men Will Confer

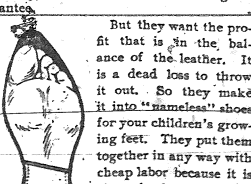

MONCTON, July 21.—It is stated that Hon. H. R. Emmerson, minister of railways, will call another conference of the N. B. and Annapolis company over the road to meet him here soon, to discuss I. C. R. affairs. The last conference consisted of the chief officials, district superintendents, and representatives of all branches of the service, and it is supposed the next meeting will be of a similar character.

THE INSTRUCTOR: The Only Child's Shoe made in natural shapes of solid leather.

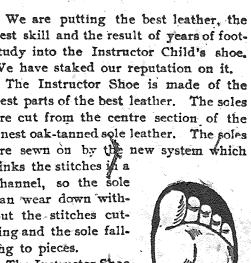

The way your children's shoes wear out must often surprise you.

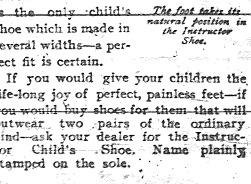

less shoe, thrown together in a cheap shapeless manner, that distorts your children's feet and fills their future years with the pains of corns and bunions. Now comes the Instructor Shoe—the first child's shoe made in Canada on a scientific basis—the only child's shoe branded with the name, and guaranteed by its maker to be solid leather through-and-through.

But they want the profit that is in the balance of the leather. It is a dead loss to throw it out. So they make it into "nameless" shoes for your children's growing feet. They put them together in any way with cheap leather—the result is a poor, cheap, nameless shoe. It is the "nameless" shoe that surprises you by wearing out so quickly. It is also this "nameless" shoe that surprises you by wearing out so quickly.

They seem to fall to pieces or the soles wear away as if they had been held to a grindstone. You have put it down as the result of the incessant running of the little feet. That, of course, has something to do with it, but only to a small extent. The real reason is that all children's shoes have been made from factory leavings. You know only part of a hide is good, tough, even-grained leather. The balance is poor stuff that falls to pieces in a short time.

Now each factory uses the best part of each hide of leather to make their best shoes—the shoes they put their name on and back up with their guarantees. But they want the profit that is in the balance of the leather. It is a dead loss to throw it out. So they make it into "nameless" shoes for your children's growing feet. They put them together in any way with cheap leather—the result is a poor, cheap, nameless shoe. It is the "nameless" shoe that surprises you by wearing out so quickly. It is also this "nameless" shoe that surprises you by wearing out so quickly.

TETRAULT SHOE CO., Montreal

Great Auk's Head Bass Ale and Guinness Stout. The Best of the Brewers' Brew.
